PROFILE

Detail-oriented Junior Data Analyst with bachelor's in computer engineering experienced in data cleaning, visualization, and reporting to support data-driven decisions. Proficient in Excel, SQL & Power BI.

EDUCATION

Khwaja Fareed University of Engineering & Information Technology (KFUEIT).

Pakistan

Bachelor of Engineering in Computer Engineering.

2019 – 2023

SKILLS

Technical Skills:

- Databases: MySQL, SQL
- Data Visualization & Reporting

Tools: Power BI, Excel.

CERTIFICATIONS

- Data Analytics Bootcamp: Atom Camp
- IBM Data Analyst (9 course series): Coursera

PROJECTS

Exploring Customer Satisfaction Amazon Sales Data:

What factors influence customer satisfaction? Overall satisfaction trends, Impact of discounts on ratings & Performance distribution across categories. Tools used in this Project Excel with Pivot tables.

Finance Data Analysis & Dashboard Project (Excel)

Cleaned and transformed raw financial data, handled missing values, and built a dynamic Excel dashboard with KPIs, charts, and filters to analyze customer behaviour and credit performance.

Investor Insights Dashboard: Analyzing Customer Investment Behavior

"Analyse and clean customer portfolio data to improve investment performance tracking, segment customers by risk, and identify data quality issues affecting financial reporting and compliance."

You are working as a junior data analyst in the finance team of an investment firm. Your job is to clean and analyse customer portfolio data that includes investments, returns, risk profiles, and customer demographics.

Customer Loan Portfolio Analysis Dashboard

"Clean and analyse customer loan data to uncover inconsistencies, assess risk exposure, and support compliance with financial reporting standards."

As a junior data analyst by a financial institution to help organize and analyse loan portfolio data. The data is inconsistent and incomplete, and your job is to prepare it for insights and reporting.

EXPERIENCE

Shandong Tiejun Electric Power Engineering Co, Ltd.

Riyad, Saudi Arabia

Planning Engineer:

Present

As a Junior Planning Engineer, I assist in collecting, analysing, and reporting project data to support progress monitoring and decision-making. I regularly work with Excel to prepare S-curves, pivot tables, and visual reports for daily, weekly, and monthly updates.

My role involves cleaning and organizing data from multiple departments, maintaining accurate records, and creating performance summaries that track key project metrics.

This experience has allowed me to develop strong foundational skills in data analysis, reporting, and visualization, which closely align with the responsibilities of a Junior Data Analyst.

Prodigy InfoTech.

Remote

Data Science Intern:

Jun 24-Aug 24

As a Data Science intern and a fresher, I cleaned and organized data, performed analysis to uncover insights, created visualizations, and assisted with machine learning models. I automated tasks, wrote SQL queries and collaborated with teams to solve data challenges, while documenting processes and results for future use. I learned a lot through hands-on experience and teamwork.
